skillspass™

Transforming Training

SkillsPass™ is a cloud-based enterprise scale training, certification, and compliance management platform that delivers and validates training, skill development, and credentials across large multi-stakeholder environments. It helps transform training delivery for governments, industry associations, and employers of all types and sizes.

The platform connects workers, employers, and all related stakeholders via one online training ecosystem- in a seamless fashion for internal and external trainees- and delivers mobile training e-Certificates that stay with the employee-in real-time, for ease of employer reference, or for validation and inspection.

"

The ability to track training and certifications digitally with SkillsPass is a game changer for our for industry - given our compliance requirements, and the transient nature of the workforce, trades people, and third party suppliers on job sites"

- JOE SULPHER
Owner, Sulpher Construction
